Medical Disability Documentation Form

In order to provide services and evaluate requests for accommodations, CASS requires documentation of a student’s disabilities.

State and Federal Law provide that individuals with disabilities are protected from discrimination and may be entitled to reasonable accommodations. To establish that an individual meets the requirements under the law, documentation must not only indicate that a specific disability exists but also that any functional limitations caused by the disability either significantly limit one or more major life activities or prevent the normal exercise of bodily or mental functions. A diagnosis of a medical condition in and of itself does not automatically qualify an individual for accommodations. The documentation must also support the request for accommodations and academic adjustments.

This document requests information necessary to establish the impact of the student’s disability on their academic performance and to validate the need for accommodations.

The medical diagnosis information provided herein will be held confidential and will only be released with permission of the student. In addition to the requested information, please attach any other information you think would be relevant to the student’s academic adjustment. Please contact us if you have questions or concerns. Thank you for your assistance.

This form must be completed and signed by a medical/clinical professional and returned to CASS.

Student's Name: ________________________________

Caltech Class: ________________________________

Today's Date ____________________ Date of Diagnosis: ____________________

Date Student was Last Seen/Name of Professional: ________________________________
1. Please provide the diagnosis/diagnoses that form the basis of student’s disability?
_________________________________________________________________________

a) How long has student had this condition? ________________________________

b) Provide duration or recovery period expected. ____________________________

2. What tests, if any, were relied upon in reaching the diagnosis/es identified in question 1?

3. Please describe the current functional limitations imposed by the disability, indicate whether the impact is substantial and the predicted impact on academic performance or engagement in programs or activities.

4. What are the major symptoms of the disorder currently manifested by the student, including level of severity?
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________

5. If medications are prescribed, how might side-effects, if any, affect the student's academic performance?
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________
6. What is the current prognosis? Please give a description of the expected remission, progression or stability of impact of the condition over time.

______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________

7. Is there anything else you think we should know about the student's disability?

______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________

8. Please identify suggested accommodations with accompanying rationale. A link must be established between the suggested accommodations and the functional limitations of the individual that are pertinent to academic and residential settings. This information is essential for the University to evaluate requests for accommodations.
